

I believe that the members are what make our union strong.

Bryanne Koehn

for 998 President

THE TIME FOR CHANGE IS NOW.

I've been on the frontlines with our members every day as the 998 Chief Steward. With over eleven years at Hydro in various roles, I've witnessed challenges and successes amid a changing world. Inflation, mental health, wage disparity, and job security have impacted all of us. As your President, I'll focus on improving working conditions and ensuring 998's future is brighter than ever before.

I prioritize upholding your rights as workers, empowering members with insight and transparency, and negotiating for what we, the members, want. I teach union education, and believe knowledge - paired with integrity and collective action - is power.

I'm the kind of gal who reads about labour strategy and case law for fun.

I want to incorporate this energy, grit, and depth of understanding into my role as your President.

Representing our members is a privilege and responsibility I take seriously. Beyond my union work, I'm a mom, animal lover, thrifter, nature enthusiast, musician, motorcycle rider, bookworm, gamer, crafter, and an unapologetic advocate for social justice.

OUR COMMITMENT TO YOU:

- ✓ **Fiscal responsibility:** accountability & elevated reporting standards
- ✓ **Improved governance & revitalization:** GMMs, website, social media, bylaws
- ✓ **Strong leadership:** progress mental health awareness, job security, conflict resolution, labour literacy
- ✓ **Member-Led Direction:** involvement with committees, education, and other goal-setting opportunities

We will fight for you and beside you.
Your vision is our mission.
