

// We can only overcome challenges if we stand together.

Daniel Schroeder

for 1st Vice President

LET CHANGE LEAD.

I am committed to improving the transparency and inclusivity of our members alongside our leadership team. I have served on the board of the Manitoba Team Handball Federation (MTHF) as Treasurer, and was able to initiate sustainable process improvements. Currently, I am the VP of the International Right of Way Region 10-Chapter 79. I've grown increasingly dedicated to a democratic approach to leadership. I hope to integrate these values as your 1st Vice President.

As a dedicated father of three and Hydro employee for over 16 years as a Right of Way Agent, my role relies on proficiencies in negotiations, analysis, and operational improvements. I am working towards becoming the head referee with MTHF, ultimately obtaining this on a national level. I aim to bring energy and passion to the Executive Team.

With new leadership and engaged members, we'll foster a shared commitment and ownership of our Union. While previous leadership brings valuable experience, we believe there is an opportunity for meaningful growth through fresh innovation and embracing new ways of integrating and mobilizing our members.

OUR COMMITMENT TO YOU:

-  **Fiscal responsibility:** accountability & elevated reporting standards
-  **Improved governance & revitalization:** GMMs, website, social media, bylaws
-  **Strong leadership:** progress mental health awareness, job security, conflict resolution, member education
-  **Member Engagement:** involvement with committees, education, and other engagement opportunities

We will fight for you and beside you.
Your vision is our mission.
