

CUPE 998 Welcomes All AMHSSE Members to Our Union Family

We're proud to announce that all **AMHSSE members are now officially part of CUPE 998**, uniting everyone at **Efficiency Manitoba** under one strong, collective voice. With this change, there is now only **one union representing all employees** at Efficiency Manitoba, CUPE 998.

This marks a significant milestone in our shared journey toward a fair, collaborative, and inclusive workplace. The discussions around union priorities and opportunities for stronger collaboration have highlighted exactly why **CUPE is committed to being the union of choice for all our members**. Our goal is simple: to make sure **your voices are heard, your rights are protected, and your workplace concerns are addressed** through fair and effective representation.

By coming together, we've reinforced the power of solidarity, the idea that when we stand united, we can achieve more for everyone. This foundation will strengthen our advocacy efforts and guide us as we move forward together.

Bargaining is Coming Up

As we look ahead, **collective bargaining is on the horizon**. This is our opportunity to build on our shared priorities, address key workplace issues, and ensure that the gains we make reflect the needs and aspirations of all CUPE 998 members. Your input and engagement will be vital as we prepare for these discussions, and we'll be reaching out for your feedback in the weeks ahead.

Together, we are stronger. Together, we are CUPE 998.

To learn more about your benefits, see the Efficiency Manitoba Collective Agreement on our website at www.998.cupe.ca
