Get Involved: Become a CUPE Steward at Efficiency Manitoba

Would you like to become more involved with CUPE and help make a difference in your workplace? CUPE Local 998 is looking for a steward to represent and support our members at Efficiency Manitoba.

Stewards provide an important connection between members and their union. They help coworkers understand their collective agreement, raise workplace concerns, and connect with union resources and support. They also help ensure members' voices are heard when workplace issues arise.

You do not need to have all the answers to express interest. A willingness to listen, learn, respect confidentiality, and advocate for fair treatment are valuable qualities in a steward. Being approachable and committed to supporting your coworkers matters.

Becoming a steward is an opportunity to build your knowledge, develop your confidence, and contribute to a stronger union presence at Efficiency Manitoba. It is a meaningful way to help colleagues navigate challenges and feel supported at work.

Our union is stronger when members participate. Having a steward at Efficiency Manitoba encourages communication and helps bring members' experiences, questions, and concerns forward.

If you are interested in becoming a steward, or would like more information about the role and its responsibilities, please contact **Gord Meneer at gmeneer@hydro.mb.ca**.

The deadline to express your interest is November 30, 2026.

If more than one member expresses interest in the position, CUPE will hold an election.

Consider putting your name forward. Your involvement can make a difference for your coworkers and your union.

Raising concerns early helps us identify workplace issues before unreasonable workloads become the new normal.
